

BIG GREEN THING

PLASTIC BOTTLE BOAT

MAKE YOUR OWN BOAT FROM A PLASTIC DRINKS BOTTLE - THEN WATCH IT ZOOM AROUND THE WATER! PLEASE CHECK WITH A GROWN-UP BEFORE STARTING TO MAKE THIS!

YOU WILL NEED ►

1. Plastic drinks bottle (2 litre)
2. Drawing pin
3. Some marbles
4. Bicarbonate of soda / baking soda
5. Vinegar
6. Toilet paper

- Make a hole in the lid of the bottle using the drawing pin (ask an adult to help you with this bit). If you don't have a pin, just loosen the cap a bit.
- Tear off 3-4 sheets of toilet paper.
- Put some bicarbonate of soda on the toilet paper and make sure it's spread out evenly.
- Roll up the toilet paper and put it into the bottle.
- Now put in some marbles so that the opening of the bottle is weighted down.
- Pour vinegar into the bottle until it's a quarter full and put the cap on the bottle quickly.
- Put the boat in water and watch it move!
